The mission of the Fair Lawn Public Schools is to promote continuous improvement and high levels of learning, to foster self confidence and support success for all students. and to engender productive and humane citizens empowered by the critical, technological, and communication tools necessary to function democratically in a global society. Our expectation is that all students achieve the New Jersey Student Learning Standards at all grade levels.

Session 1 of 3 - What are the Strengths/Achievements and Challenges/Opportunities of the Fair Lawn Public Schools?

On Wednesday, October 11, 2017 Fair Lawn Public School District administrators, staff, Board members, parents, and community members came together to initiate strategic planning. The first evening's topic focused on the Strengths/Achievements, and challenges/opportunities of the Fair Lawn Public Schools. The meeting began with welcoming remarks by Eugene Banta, President of the Board of Education. Dr. Ernest Palestis, Interim Superintendent, provided an informative overview of the district. Facilitators Matt Lee and Charlene Peterson from the New Jersey School Boards Association introduced the strategic planning methodology and assisted throughout the process.

More than 40 community, parent and staff participants gathered in four randomly assigned groups to identify the Strengths/Achievements and Challenges/Opportunities of the Fair Lawn Public Schools through brainstorming and the sharing of ideas. After discussion, each group came to a consensus on its top 10 Strengths/Achievements and top 10 challenges/opportunities and presented those to the full group of meeting participants.

The information that follows is a summary of the work of the small groups. All consensus points are recorded and posted on the district's website (<http://www.fairlawschools.org>) to share the group work during the course of the strategic planning process.
